	7:30 First Aid Class	Friday Oct. 20--	Chorus
	7:30 Farm Bookkeeping		
	8:30 Typing		

BIBLE STUDY WEEK

During the week we have enjoyed the meetings and classes taught by Rev. J. J. Plenert. The attendance has been very good every evening. The largest group attended the Tuesday night meeting when Rev. Plenert told of his experiences in prison in the last war. Tonight will be the concluding class on the Book of Acts. Rev. Plenert will also conduct the Sunday morning and evening services.

POCKET BIBLE HANDBOOKS

The author, Henry Halley, of the Pocket Bible Handbook has made his books available for 75¢ to men in CPS camps. The regular price is \$1.00. Already 35 books have been sold in camp. Those interested in seeing the book or ordering one should see the educational director.

BASKETBALL

The outside goal has been erected west of the tennis court. On Thursday we will begin using the Gymn in Colorado Springs. However, there will be no league play or organized teams until the first of November so as to allow men to finish the First Aid Class.

CHORUS

The chorus will meet this evening. New music has been ordered for the chorus which should be arriving soon.

CAR OWNERS CONFERENCE

The car owners of CPS #5 met last Friday to discuss some of the problems of cars in camp. It was agreed that no cars should be parked in camp overnight at anytime. Committees were appointed to supervise the car repair and to look into the matter of building a auto repair garage. This committee is Alvin Buller, Francis Sallaska, and Vernie Smith. Another committee was elected to supervise the repair of the parking lot and roadway on Mr. Nichols property. This committee is Schultz, Ethan Miller, Ed Belan, Clark Porter, and Arnold Wall.

SPOOKS IN THE KITCHEN

It is common knowledge that men in the kitchen are live wires. However, little did they realize that their stove was throwing off electric sparks. There was a lot of speculation as to the cause of this loose electricity. A loose ground wire proved to be the cause.

CAMP COUNCIL

The next camp council meeting will be on Wednesday at 9:00 PM. Job Rotation will be the topic of discussion.

RELIGIOUS LIFE COMMITTEE

The Religious Life Committee plans to distribute the offering as follows: \$50.00 to the Spanish Mission in Colorado Springs, \$25.00 to Camper Aid, \$32.56 to Puerto Rico, \$24.79 to Greece, \$9.02 to China, \$9.86 to Paraguay, \$9.33 to Jewish Relief, and \$8.31 to England. There is a total of \$73.16 remaining in the Church Treasury.

NEW BOOKS

The Social Recreation Primer by Tully has been added to the library. It is published by the Church of the Brethren and will be used to guide them in their recreation.

On the first table to the right as you enter the library are a number of government bulletins on various topics on farming. Some of them are: Livestock and Poultry Farm Planning, and Useful Aids and Suggestions for the Farm. It will be worthwhile for you to look at them when you are in the library.

BED BUGS

Mr. Griffith has written in to headquarters inquiring whether Selective Service would be willing to pay for half of the bed bug job. We are now awaiting reply. It seems quite a task to rid ourselves of these pests.

FURLOUGHS

The furlough situation has eased up. Take your furloughs while the taking is good.

MATRON ARRIVES

The camp welcomed Mrs. Linscheid who arrived last Wednesday evening. She is at home in Apartment B. We are grateful for her coming and hope she will be with us for some time.

PROJECTS

Approximately 30 men are still working on emergency farm labor. Two other crews are building fish culture dams in cooperation with the Fish and Wildlife Commission. Masonry outlet structures will be built on the Belveal Project in order to complete the project which has been in process for a year. The D. and E. Project continues to prosper with six tractor men and a cook. The men on this project are Willie Regier, Paul Koehn, Ogen Harms, Kenneth Krehbiel, Bud Stucky, Roland Doerksen, and Harry Froese.

MISCELLANEOUS

The recreation committee is planning a roller skating party in the near future. The fish fry we had on Wednesday evening was the result of cleaning out a lake on the Lewis property. Credit should be given to the fellows who cleaned the fish. All those interested in working for cooperatives after the war should make an application to the Associations. A large number of jobs are listed. LOST: One wedding ring by Dave Superman. P.S.---Alice is worried because Dave now has no evidence to show that he is "taken". A C.P.S. reward will be given to the finder of the ring.

Woodrow Wilson - "It is easier to face machine guns than to face sneers."

Roy L. Smith - "Most folk get their training in psychology from the Sunday newspaper, their instruction in political matters from the party press and their theology from Pullman-car professors and luncheon club authorities."
