SUNDAY

The morning worship services will begin at 11:00 and Rev. H. E. Miller from Deer Creek, Oklahoma will be with us. He will teach the Old Testament History class in the lounge at 10:00 and the regular Sunday School class will meet in the assembly hall. The morning collection is to be given to MCC Peace Section in their work of publicizing the peace testimony of the Mennonites.

MRS. LINSCHIED MIGHT LEAVE

Mrs. Linschied has been asked to assume the responsibility of the Clothing Center in Newton, Kansas which is the depot for clothes to be shipped for foreign relief. She left yesterday to be interviewed and to look at the job before making the final decision. Miss Grooning, who was formerly dietitian here, has been asked to assume her former position again. She is at present dietitian at the Belton, Montana camp.

LIVESTOCK SELECTION COURSE

The Livestock Selection course is to begin this evening at 8:00. The discussion this evening will be on Dairy Cattle led by Eugene Sallaska. He promises that he won't spend all his time on Ayrshires. The discussions on Beef Cattle, Poultry, Hogs, and Sheep will run according to the schedule in the Calendar. The Holstein Breeding Assoc. has donated a book, COWPHILOSOPHY, to the library which is an excellent source for information on Dairy Cattle. Copies of this book may be purchased for \$3.00, less some discount if you would like a personal copy.

WALSENBURG REPORTS

Paul Landis writes from the Walsenburg side camp: "Well, we are settled now and the set-up is pretty near the way you described it. The rooms are pleasant and comfortable. The meals are fairly good, although I see now that it takes all of \$2.00 down here to food us as good as we were fed in camp. The work has been mostly shovel work. Yesterday the Mexicans that work on the same job got the idea that we were getting \$7.00 a day and that coupled with the fact that we ride out in a '42 Plymouth with one of the Government men, made them sore at us. But after they found out that we weren't getting paid they were a little more friendly."

BASKETBALL

Since the YMCA league is moving rather slowly, it is planned to organize an intramural league for playing basketball on Thursday nights. Those who are interested in playing basketball regularly once a week will be asked to sign up on Saturday morning and captains will be elected. The group that played last night decided that a committee should place the men to have teams as nearly equal in strength as possible. It's a lot of fun and you are urged to enter this activity.

NEW CAMPER

The Paul Quirings are the parents of a baby girl, Margaret Ann, since Sunday. The stork was not discouraged by the bad weather.

RELIGIOUS EMPHASIS WEEK

Beginning December 10 Rev. E. M. Yost will bring a series of messages to the camp. Rev. Yost is from Hasston, Kansas. Plan your affairs so that you can attend the meetings.

Ogen Harms - APPENDECTOMY

Ogen Harms was stricken with acute appendicitis and was unable to return from his furlough. The Red Cross of Clinton, Okla. called saying that Ogen was to be operated on Monday at 1:00 P.M.

LAUNDRY SALE

On Monday evening following supper there will be a laundry sale of all the unmarked laundry. No laundry will be allowed to be taken from the room until it is marked.

REGARDING GOVERNMENT SHEETS

Walt Stucky and Leonard Raney are marking all the sheets with a number and the initials of the person to whom they will be checked. Raney is washing them in the afternoon and they will be placed in your laundry bin. Remember these sheets belong to the Government and must be returned when worn out. The number of your sheets are recorded and you are responsible for them.

ALUMINUS

Jake Duerkson who left for the navy from here last Spring is stationed at San Diego and expects to be assigned to a ship soon. He sends his regards to the men he knows at No. 5.

CANNED GOODS

1150 quarts of fruits and vegetables were brought here by Rev. John Karber of Fairview, Oklahoma on Saturday. On the first of this week a truck load of canned goods came from the Hillsboro Collection Center which contained approximately 5,000 quarts. A part of that load was picked up in Moundridge. This certainly indicates that the folks at home are putting in a lot of work for us and we should appreciate their efforts.

WENT HOME

Alfred Arnecke left for home on Sunday since his parole has ended. He felt that he was not legally assigned here although the camp has his Order to Report. He carried a 2 year-old classification card (4-F) but NSBRO states emphatically that he is officially in 4-E and should be in camp. The NSB wired him in Texas that he should return to camp. However, a telephone call from his minister, B. A. Knocke, revealed that he had not arrived in Texas on Saturday evening. His furlough expires today.

ODDS & ENDS

No one seemed to mind the blizzard last Saturday. There was probably more leather work done on that day than any other single day. In the afternoon when the snow ceased and the roads were opened, 38 men took weekend leaves. Saturday night a number of pipes froze in the staff quarters which was not heated as a result of the fumigation.

WEEKEND RELIEF WORKERS

Kitchen: Alton Langa, Helmuth Luerson, Edward Martens, Menno Martens, and John Kliewer.

Orderlies: James McVey and Elmer Miller.

WANTED!!
