## LIVESTOCK DISEASE CLASS

Dr. L. L. Glynn has consented to conduct several classes on diseases of livestock beginning Monday evening. Dr. Glynn is one of the best known veterinarians in this area. Monday's class will be on diseases of cattle and the Wednesday class on diseases of hogs and sheep. Some of the topics to be discussed are: symptoms and cure for common diseases, value of vaccination and inoculations, farm practices which lead to raising healthy livestock. Be sure to take advantage of this opportunity to hear Dr. Glynn.

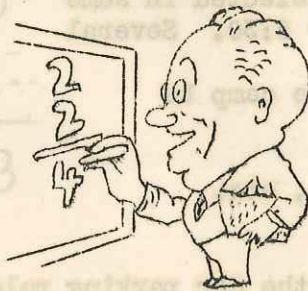

## ASSIGNMENTS! DEFERMENTS! TRANSFERS!

Eugene D. Eicher of Route 1, Foley, Alabama has been assigned here to arrive May 4. Orval Miller, an Iowa new assignee, received a six month's deferment. Jake Plett, a skilled mechanic, is being transferred here from Mount Pleasant Mental Hospital. Arnold Wall will transfer to the Artificial Insemination Unit in Michigan in May.

## NEW EDUCATIONAL DIRECTOR ARRIVES

Wes Prieb arrived from the Florida Hookworm Project on Wednesday evening to begin his duties here as educational director. Wes' home is in Hillsboro, Kansas where he attended Tabor College. He began his CPS life in the Goshen Foreign Relief Training School, transferred to Grottoes, Va. and from there to Mulberry.

## FIRE CALL

Monday was a busy day as far as fire fighting goes. At 11:15 the camp crew answered the call on the Cragmore prairie fire. As soon as they returned at 1:15 another call came from the Cheyenne Mountain fire which was out of control. The camp crew again answered the call and the project crews also were directed to the fire. They remained there until 7:30 when a standby crew in camp relieved them and remained out all night. On Tuesday morning another crew went out and completed the job of mopping up.

## PRAYER MEETING

The topic for Wednesday's Prayer Meeting will be, "Is Conscience a Reliable Guide for Christian Life". The meeting will be at 7:00 instead of 8:00. We need your thinking on this topic and we're counting on you to attend.

## SOLD OUT SECTION

Jesse Diener certainly was beaming for several days during which time his woman was here to get a good look at him before the wedding date.....Harvey Schmidt says don't get married. It gives you the mumps. He is now in the isolation ward of Memorial Hospital..... ### PURPOSE OF PAMPHLETS

This is a part of the introduction in the first pamphlet: "During recent years devout men have been using the scientific method in studying the Bible and this has resulted in a vast increase in our knowledge and understanding of the Christian Scriptures. Unfortunately much of this new information has been shut up inside the schools and has not been utilized by the plain people who go to the Bible for inspiration and help. As result many cults and sects have fattened upon the fact that lay people in large numbers remain ignorant of the background of the Bible and the conditions under which it came to its present completion. There is a great reverence for the Bible particularly among Christian people. But reverence that remains ignorant is sometimes as dangerous to the cause of good religion as outright antagonism. It is highly

important that the church shall give its people adequate and reliable information concerning the Book which is central in their faith."

### BELTON HERE WE COME

Never in the history of CPS #5 has this camp been so popular. No one wants to leave camp. This evening the campers will meet to decide how the men are to be selected to fill the 20 man quota for Belton. Nine men have volunteered and the remainder will have to be selected in some manner. The meeting time has been set for 8:30. Several methods have been suggested:

1. Any man that has any gripes about the camp be placed on the Belton list.
2. Drawing of lots.
3. Selective draft by length of service, etc.

We're Going!

### CARS

Have some of the men forgotten about the car parking rules set up by the car owners themselves? Someone has suggested we purchase a billfold or something for Mr. Nichols as a token of our gratefulness for allowing the parking of cars on his property. Give the Parking Committee your attitude on this.
