Dairy Letter No. 42

June 13, 1945

Dear Dairy Assignee:

And what is so fine as a day in June when Dairy Sunday comes along! Here's hoping that you are enjoying this nice weather (I hope) and things are going "just right".

We think that Rev. Lando Hiebert from the Mennonite Brethren Church will be with us this coming Sunday. We hope that you will be able to attend and extend a hearty invitation to you.

Several of you have inquired whether this might be an opportune time for Selective Service to consider hardship cases for demobilization. I wrote in to our agency and they replied that as yet no further information had reached them. They suggested that we wait until a little later to present such cases. The Selective Service Adjusted Rating cards have arrived and will need your signature. So if you are in camp Sunday and have not signed one please stop by the office and do so.

Jim Nidey's have been reassigned to the Ruthenberg Ranch near Monument. Arnold Huffman is the manager. They received word that Jim's brother was killed on Okinawa. Our sympathy to you Jim and we hope this conflict may end soon.....Homer Krehbiel of Hill City arrived to assume his work at the A. S. Best Ranch near Palmer Lake. He reports that he likes the place fine. On the 6th of June he had the misfortune of almost severing his middle finger on the left hand. The main artery was not severed so the physician "sewed it back on". Here's hoping that he will recuperate in good shape. He is home on a three-week absent sick status.....Mrs. Dave Pauls was sick in bed for about three weeks. We're glad to have you up and around again.....Virgil Stutzman's have moved to a cute little cottage right next to the dairy barn. Virgil reports that the "chicken wire" (the house is to be "stuckoed") on the outside of the house is to---well you know. Anyhow, we are happy for your nice new living quarters.

We'll be expecting you on Sunday!

Sincerely yours,

/s/ Waldo O. Voth
Area Supervisor
